THE WEEKLY KAIMIN

VOL. IV.

UNIVERSITY OF MONTANA, MISSOULA, FEBRUARY 9, 1911.

NO. 45 18

BERRY BILL BOOSTS

TO ALLOW GRADUATES TO TEACH
WITHOUT TAKING
EXAMS.

IS POPULAR MEASURE

Will Help Grads. to Receive Life Diploma on the Successful Expiration of Five Years' Work.

If Representative Berry's bill for "an act relating to qualifications of teachers and the granting of teachers' certificates to graduates of the University of Montana" becomes a law, those who complete the state institution's course will have the right to teach in the high schools without taking examinations. The bill's text is as follows:

"Be It Enacted by the Legislative Assembly of the State of Montana:

"Section 1. Any graduate of the University of Montana shall, on the registry of his diploma, together with his University certificate of qualification to teach, in the office of the state superintendent of public instruction, be entitled to teach in the high schools of the State of Montana without other or further examination, for the term of five years after such graduation, and every such graduate shall, on furnishing the state board of education satisfactory evidence of having successfully taught in high schools, 27 months, be entitled to have said diploma validated as a life diploma."

This will mean a great deal to those who intend to teach and will give the University a boost that is sure to do it and its graduates a lasting good.

WHIPPLE LECTURES

MEMBER OF MONTANA AGRICULTURAL FACULTY PLEASES THE STUDENTS.

The University is very fortunate this week in having Professor O. B. Whipple of the State Agricultural College as a special lecturer in connection with the Short Course in Forestry. Professor Whipple is a specialist in horticulture and is giving five lectures this week in return for the series of American history lectures which President Duniway recently delivered to the Agricultural students.

The return lectures which have thus far been delivered have been very interesting and each has been attended by an appreciative audience of students and visitors. The subjects which are treated in this series of lectures are of extreme practical value both to foresters and to fruitgrowers and several orchardists about Missoula are taking advantage of this opportunity to hear Professor Whipple.

Besides the special advantages which this exchange of instructors has afforded to the students and friends of the two schools, there is the interesting fact that this exchange may be the initiation of a new plan in the educational policy of our state. Professors in the larger eastern institutions quite frequently exchange chairs but this is the first attempt at such within our state. The method certainly offers advantages both to the students and to the professors and the present trial is proving very successful.

WOMAN'S CLUB.

The Woman's Club of the city held

a very interesting meeting last Saturday afternoon. Mrs. Corbin, the head of the literature department of the club, took charge of the program which was on the poet Burns.

Miss Stewart, who has recently returned from abroad, told us some very interesting experiences she met with while traveling through the Burns country, how, for instance, everyone, even to the smallest urchin on the street, is exceedingly eager and proud to show to travelers something pertaining to Mr. Burns. She spoke of his farm at Ayr, and described the country surrounding in such language that we could almost see the unproductive fields and feel the chilliness of the stiff, cool breeze blowing always from the ocean. She had some splendid pictures of interesting places and scenes familiar to Burns which she passed around and, of course, they were eagerly looked over.

Miss Smith read "Francesca's Love Affair," a Scotch story which is very entertaining and was especially so on this occasion, for we had heard already so much about Scotland and Scotch people. Given in Miss Smith's inimitable way, the story had the personality back of it which made it ring true as only her stories can do.

Y. W. C. A.

At 2:30 last Sunday afternoon Miss Gage of the national board of the Y. W. C. A. and secretary of the entire Northwest, talked to the women of the University in Woman's Hall. She told of the Y. W. C. A. work in the Northwest and the good the organization is accomplishing. Miss Gage also established a city organization while here.

Miss Kawai, a member of the national board of the Y. W. C. A. and a secretary of the Japanese organization, will arrive in Missoula next Tuesday, February 14, on a visit of one day with the Y. W. C. A. here. Miss Kawai, whose headquarters are in Tokio, Japan, is on her way to a world's conference and will only stop in the Northwest for 20 days. We are indeed very fortunate in having Miss Kawai with us for a day and our University organization is the only one in Montana that she will visit. Miss Kawai is a graduate of Bryn Mawr, as well as a Japanese school, and is a very efficient worker in the Y. W. C. A. Tuesday afternoon Miss Kawai will talk to the women of the University and all other persons who are interested. After the talk a tea will be given in Woman's Hall.

HIGGINS' LAW BILL

PASSES HOUSE AND STANDS A
GOOD SHOW OF PASSING
THE SENATE.

HIGGINS IS POPULAR

Measure to Create Law School in the
University of Montana
Meets Favor.

The announcement last week that the bill for the establishment of a law school at the University of Montana had passed the house of the State Legislature with a good vote, came as welcome news to every stu-

RONALD HIGGINS

dent and friend of the University. The alumni representatives who have been working in Helena, say that there is good reason to believe that the measure will receive the endorsement of the senate and that the governor will give it his approval.

However, the alumni association is still hard at work and urges each student to write personal letters to his or her senator, asking their support for this bill and for others effecting the University. The law school bill apparently met very little opposition in the house, but this does not assure a

(Continued on Page Two.)

SCIENCE MEETING.

The Science Association met last Tuesday night at 7:30 and a large number were present. Dr. Kirkwood spoke on "The People and Plants of Mexico." He spoke very interestingly on this topic and was very instructive to those present.

PACKARD COMING

NEXT NUMBER ON LECTURE
COURSE WILL BE PRESENTED
SATURDAY EVENING.

Alton Packard, artist and cartoonist, musician and composer, humorist and entertainer. Edmund Vance Cook, in the Lyceumite, writes of Alton Packard. "One of the qualities of his work is bigness. He has a solid voice that masters any auditorium. His genius is better adapted to the platform than to any other avenue of expression. He has given the best he has in him to the Lyceum. In return the Lyceum has given him the best it has to offer. Packard was made for the platform and the platform was made for Packard."

In a critical essay on Packard and his work, Charles Sandburg writes: "In him yellow journalism lost a sapphire and the lyceum gained a ruby. Packard advertises to deliver 'rare fun well done' and he does this to a queen's taste. When you hear Packard you recall all you have read in Thackeray's Book of Snobs. Never a pulpit orator more direct in giving you a guilty feeling than this man Packard. He knows the great music masters and can set a piano tintinnabulating with a sublime concerto. He sings—with a pleasing baritone voice. He composes music—both the song and accompaniment. He writes—not only airy society verse, but sparkling songs. He draws—not only funny cartoons, but sketches somber with the tints of pathos and tears. Beyond all these accomplishments he is a social treasure—one of those men whom all his acquaintances prize as a companion; and they call him "Pack." Shall we not say Alton Packard is more than an artist? and is almost a real man? To be sure he is not dead yet, and as no man is great until he is dead, I will not throw verbal violets at him, but I was on the point of calling him a fine, rare soul. We must be careful lest we are not discriminate!"

JOURNALISM DEPT.

A BENEFIT TO THE STAFF AND
A NEW DEPARTURE IN
UNIVERSITY.

CREDITS FOR KAIMIN

Under the Supervision of Dr. Reynolds
of the Engineering Department
of the University.

The faculty has authorized credit work on The Kaimin. At a recent meeting a ruling was made that students registering for work in journalism could receive not to exceed one hour in one semester or four credits toward graduation, if the work done was of sufficient in quality and quantity to that usually required by the department of English. In consequence several men have registered for this work and The Kaimin should reap the benefit.

For some time the faculty has felt that such work by students was truly educational and if well done deserved credit. Still the faculty did not wish to give credit for work done without supervision, and as the teachers of composition had too much work to offer a special course in journalism, there seemed to be no way to carry out the plan satisfactorily. Another thing had also to be guarded against. The faculty felt that The Kaimin should be left as free as in the past from faculty supervision or censorship, that it might remain a really student publication.

The newly adopted regulations avoid, it is believed, all these difficulties. Each week persons desiring credit in journalism will submit to the department of English, signed copies of the Kaimin. These will be corrected, returned to the writers and again submitted to the instructor, thus receiving the same treatment as do the regular themes.

One-half hour of credit will be allowed for an average production of 750 words a week, and an hour for double that amount.

The plan, of course, is only an experiment, but seems to meet the demands of the faculty and the needs of The Kaimin editors.

BASKET BALL GAMES

SENIORS INVINCIBLE—AS YET
HAVE NOT BEEN BEATEN IN
INTER-CLASS SERIES.

Last Thursday afternoon the Seniors won an easy victory over the Freshmen, defeating them by a score of 57 to 17. This game practically assures the victory of the inter-class series to the Seniors, since they have already defeated the other two classes by even more decisive scores.

The Seniors played really good basketball. Their team work was perfect and at no time did the Freshmen have a show, except at a few times when the Seniors stopped to rest. Bishop played his usual star game, winning a total of 40 points. Little and Ryan also did good work.

The second game of the day was between the Sophomores and Foresters. This resulted in an easy victory for the Sophomores, with a score of 48 to 23. Marshall and Dobson of the Sophomores played brilliant ball, while Johnson of the Foresters did good work.

THURSDAY, FEBRUARY 9, 1911

CALENDAR.

Thursday, February 9.—U. of M. vs. White House, indoor baseball.

Thursday, February 9. — Sophomores vs. Seniors, basketball.

THE WORK OF THE A. S. U. M.

The Boosters' committee of the A. S. U. M. has come to life! Ever since the quiet, tranquil demise of the Boosters' club we have been in need of a special student corps that has for its specific business the boosting and agitating of all things helpful to the student body and to old Montana. Let us hope that they will keep up the good work.

Do not get peevish if some one comes up to you and inquires as to whether you have written to your senators and representatives concerning the pending action on affairs pertaining to the interests of the University, but treat them right, for they are trying to get you to do some real service for Montana.

Go into the matter with a vim, write to as many as you can and do your best to make Montana a larger and a better college.

THE WORK OF THE ALUMNI.

The recent activity on the part of the University, its undergraduates and alumni in fostering and directing the work concerning the bill for a Law Department, brings to light the true Montana spirit. In our hurry and self-interest we are inclined to overlook the work that the Alumni is doing in the interests of the University, and their very good work in the sending of active representatives to influence members of the house and senate is to be commended. Letters and circulars are a good means of presenting our case to the law makers, but an active presence, a live personality can

do more to further our interests than anything else.

We have to contend with the facts that other state institutions are working for appropriations and concessions and we have to "get in and dig" so as not to be crowded out and left with only a part of what we ought to have.

The successful culmination of the campaign for the constitutional amendment is proof enough that the people in the state are in sympathy with the state institutions and all they need is a proper and effective presentation of our wants and needs.

Boost! That is the slogan we should use now and it is up to every one of us undergraduates as well as Alumni to do our best for Montana.

We wish to extend our thanks to George P. Stone, our ex-editor, for the donation of several football photographs. We are making good use of them. "Thanks, muchly."

NOTICE.

Subscriptions for two months to The Kaimin can be secured by all men registered in the Short Course in Forestry at the special rate of 25 cents. Show your spirit and at the same time help us out.

NOTICE.

Hereafter The Kaimin will be distributed in the hallway of the Library Building.

PRESS CLUB.

At a meeting of the Directors of the University Press Club on Monday, Massey S. McCullough was elected editor-in-chief of The Kaimin, Ernest E. Hubert, business manager. D. D. Richards, former business manager, is now sporting editor of the paper and O. D. Speer is a reporter. An auditing committee was appointed with Miss Edith Steele as chairman, Professor J. P. Rowe and Holmes MacLay. There will be another meeting Monday, February 13, when the business manager will make a report.

HIGGINS' LAW BILL

(Continued From Page One.)

similar treatment by the senate. The text of the bill is as follows:

"Be it enacted by the Legislative Assembly of the State of Montana:

"Section 1. There is hereby created and established in this state and located at the City of Missoula, a law school, as a department of the University of Montana.

"Section 2. That said law school shall be known and designated as 'The Law Department of the University of Montana.'

"Section 3. The state board of education is hereby empowered and given authority to make all necessary rules and regulations with reference to the conduct and management of the said law school; to map out and provide for the course of study to be pursued by students attending said law school; to obtain and provide for necessary quarters, equipment and books therefor, and to retain and hire the necessary professors and instructors to instruct the students therein.

"Section 4. The sum of six thousand (\$6,000) dollars is hereby appropriated for the maintenance and conduct of the said law school for the school years of 1910 and 1911, which money shall be used exclusively for the benefit of said law school.

"Section 5. The sum of six thousand (\$6,000) dollars is hereby appropriated for the maintenance and conduct of said law school for the school years of 1911 and 1912, which money shall be used exclusively for the benefit of said law school.

"Section 6. This act shall be in full force and effect from and after its passage and approval by the governor."

CLASSES ARE BUSY

Nearly All Classes Are Up and Doing.

SENIOR CLASS MEETING.

Senior Class called to order by the president. The minutes of the previous meeting were dispensed with. The date of the Senior Swing Out was discussed and it was moved and carried to have the official Swing Out Wednesday, February 8. The motion was made and carried to have class pictures taken before Monday, February 13. It was suggested that Senior girls and boys sit in same section for the remainder of year, but a motion was made and carried that Seniors keep their seats appointed by Faculty. The motion was made and carried to have a spread after convocation next Wednesday. Committee for spread: Chares McCowen, Abbie Lucy, Mr. Spencer. Massey McCullough was elected toastmaster for spread.

Moved and carried that the class president should conduct convocation March 1, at which time a program by the Senior class will be rendered.

A report from Mr. Bullerdick, class treasurer, was read and approved. Adjourned.

JUNIOR MEETING.

There will be a meeting of the Class of 1912 on Monday, the thirteenth, for the purpose of electing a Student Committee for the Convocation Stunt. Also, the editor and manager of the Sentinel will make reports. Finance and Entertainment Committees will be elected and it is probable that the class may arouse enough enthusiasm to do something in the social line before long.

SOPHS APPOINT COMMITTEE.

President C. F. Dobson of the Sophomore class has announced the following committees for the class stunts for Convocation: On March 8, the Misses Freeze, Huffman and Lewis are to act and those appointed for the program on the 12th of April, are Miss Ingalls, Miss Smith, R. W. Wells and R. L. Johnson. The various committees are to meet with Professor Reynolds as soon as possible.

ASSEMBLY PERIODS

NEW ARRANGEMENTS OF ASSEMBLIES WILL PROVE INTERESTING.

Some of the assembly periods, now occurring weekly, are, if present plans are carried out, to be used in making the University better acquainted with itself and in building up a real community spirit. One method to be made use of is the singing of college and national hymns by the student body. At a meeting of the Glee Club on Wednesday, its members agreed to lead in such singing and will hereafter sit together in the front seats of the auditorium for that purpose.

Another method is the class programs of which the first is to be presented by the Seniors March 1. Just what their program is to be is not yet announced, but President Ryan has appointed the following committee to take charge of it: Massey McCullough, chairman, Hugh Forbis, Edith Steele and Eva Coffee.

The other classes are to appear later. The assembly of Feb. 8 is to be the last of this month as that of Feb. 15 is to be omitted on account of Charter day and Feb. 22 is a holiday.

CHARTER DAY

J. P. HALL, DEAN OF CHICAGO
UNIVERSITY LAW SCHOOL,
WILL SPEAK

The regular Charter day exercises will be held on Friday, February 17. The usual plan, however, is to be somewhat varied. Instead of beginning in the evening, the celebration is to be confined to the afternoon and evening. The laboratories and buildings will be open in the afternoon for inspection as usual, and a basketball game will be played in the gymnasium at 4 o'clock, but the formal exercises, of which the principal feature will be the address of J. P. Hall, dean of the Law School of the University of Chicago, will occur at 8:30 p. m., instead of in the morning, as has previously been the custom. This is done in order to afford the public a better opportunity to hear the speaker of the day. After the address the students will be given a dance in the gymnasium by the University.

FORESTERS ORGANIZE.

Last week the Foresters of the University organized as a class and during the brief session the following officers were elected: L. C. Stockdale, president; J. P. Morrow, vice president; W. R. Eyman, treasurer; S. C. Armitage, secretary. D. D. Johnson was elected chairman of the athletic committee and captain of the basketball team. The Foresters promise to become an active factor in the college activities during their short stay here and we should all join in making it pleasant for them.

BASEBALL GAME POSTPONED.

The indoor baseball game, scheduled for Thursday, February 9, was postponed on account of the Elks' minstrels, and will be played probably on Tuesday evening February 14. At this time the University nine will struggle with the White House team. All be there and boost.

At a meeting of the Executive Committee of the A. S. U. M., held on Tuesday, the Intercollegiate Basketball series was called off. The School of Mines has no team and Bozeman would not answer any correspondence on the subject. We all wonder what has happened to M. A. C., in view of the fact that they raised such a holler last year because the varsity for a legitimate reason had no team. Here's hoping they don't "pipe" on track.

INDOOR BASEBALL

SEVERAL HIGHLY EXCITING
GAMES TAKE PLACE—INTER-
EST GROWING.

Last Thursday evening the fifth game of the indoor baseball series was a victory for the Spiders. This victory gives the Spiders the leading position of the Garden City League, and relegated the White House Club to last place.

The contest was brilliant. The Spiders played in rather poor form, or rather in hard luck till the last of the seventh inning when the score stood 12 to 10 in favor of the White House Club. With a sensational rally the Spiders brought their score up to 14, winning the game.

The Spiders played the first five innings with seven men and the rest of the game with eight, and their fight against these odds was remarkable. Their pitcher, Ferguson, though weak at first strengthened wonderfully and pitched a good game. The star player of the Spiders team, however, was Ray Hamilton, who played an extraordinary game. His fielding was good and his batting was the despair of the White House pitcher. The White House Club deserves great credit also, as it came closer to defeating its opponents than any team yet. It should prove a strong competitor for the pennant, as its team is remarkably well balanced.

The most interesting game of the entire series so far of indoor baseball was played in gym Tuesday night. The Spiders went down to inglorious defeat before the M. M. machine to the tune of 4 to 1. Lundstrum for the M. M. pitched a no-hit game. He was also credited with 12 strike-outs, while Ferguson registered but 8. Ferguson, however, allowed no bases on balls, but Lundstrum gave passes to 5.

The two teams lined up as follows: Missoula Mercantile company—Taylor, catcher; Henderson, right field; Doty, right shortstop; Scribner, first base; Pritchard, left shortstop; Courtney and Edwards, third base; Bailey, left field; Lundstrom, pitcher.

Spiders—McGee, third base; Gleason, first base; Kelley, left field; Bailey, catcher; Anderson, right shortstop; Murphy, left shortstop; Benson, third base; Woodward, left field; Ferguson, pitcher.

Batteries: M. M.—Lundstrum and Taylor.

Spiders—Ferguson and Bowling. Um-

SOCIAL EVENTS OF WEEK

ACTIVITIES OF THE STUDENT
BODY IN THE SOCIAL
WAY

Miss Trixie Stillinger, owing to sickness in the family, has left the University. She will not be here during the second semester, but we all hope to see Trixie's smiling face with us next year.

Mr. Cass Russell has returned home during the second semester because of a sprained neck. Cass will be a loss to the track team, but we hope he will be back for football next semester.

SORORITY INITIATES.

The local chapter of the Kappa Kappa Gamma sorority held its annual initiation at the home of Miss Evelyn Polleys Saturday night. The following novitiates were made members of the sorority: Josephine Hunt, Edna Brandenburg, Farrar Kennett, Josephine Polleys and Hazel Murphy.

Miss Angelia Elirie has returned to her home at Denton, Mont., where she will remain until some time in June, when she will enter the summer school of the University of Chicago to take up special work. Miss Elirie made a great many friends while here who regret very much to see her leave, but who wish her the best of success in her new work.

Miss Nan Vivian, a former student at the University, residing in Butte, has left for California, where she will spend the remainder of the winter.

Miss Helen Metcalf has been compelled to return to her home at Stevensville on account of sickness, and will not be with us the second semester.

Miss Gertrude Gilligan has left the University and will spend the rest of the winter in California for the benefit of her health.

For the past three weeks Kappa Alpha Theta has been entertaining at a series of afternoon Kensingtons. The first one was given on Saturday, January 14, when the members of Sigma Tau Gamma were entertained on the Monday between semesters, some of the girls of the Sophomore and Junior classes joined them in working on dainty embroidery and drinking tea. Last Friday the patronesses of the fraternity and the mothers of the members in town came out for a cozy afternoon in the chapter rooms.

Was the athletic ball a "fizzle?" Of course not! That question has been asked repeatedly since Friday night. Why should anyone ask that? No, indeed! If those skeptical people had been at the dance they would have seen what a glorious affair it was. The fact that they ask the question betrays them; they should have been there to make it a success if they had thought for an instant that it would not be. But it was a success! The music was fine, the floor was good. This alone declares the dance a success. What more could you want?

Hal Ha!

Lucile Marshall, excitedly (after Senior meeting, to Lillian Williams and Massey McCullough)—“Oh, people, I just got a quarter out of our treasurer, Mr. Bullerick.”

L. W. and M. M. together (with hopeful tones, indicating they would like to do the same)—“How?”

Lucile, coyly—“Oh, I gave him 50 cents and only owed him 25, so you see I got a quarter out of him.”

“Father,” said the college youth, I am engaged to marry Miss Hobel Skirt.”

“Is she pretty?” asked the old gent. “I don’t know. I never saw her with her hat off.”

The Aggies are making preparations to put on a play. It is called the “College Cocktail,” and is to be in charge of the regimental band. When is our talent to appear?

In Princeton the Freshies must receive a severe shock on entering. Two of them died since college opened as a result of infantile paralysis. Our Freshmen receive their shocks on the end of the semester.

Shocking.

Slangy Dorm Girls at lunch (in a chorus, after receiving their bottle of water)—“Thanks.”

Gruff Walter—“Yes; water-tanks.”

Kaimin Stock Quotations.

At the closing of the market Wednesday at 5 o’clock 10c bid; 13c asked.

Good Night.

“Homer, you don’t seem to take the interest in me you used to,” sighed the dorm girl as the tears glistened in her eyes.

“But I do,” exclaimed the youth fer-

vently. “Why do you question me?” “Well,” sobbed the tender maiden, “it only tut-tut-took you fifteen minutes to say good-bye lul-lul-lul last night.”

Why Not?

A Chicago man can build a fire and cook by wireless, which is all very nice and nifty. But as one man to another, what we want to know is, can he fire the cook by fireless?

Well, Look Who’s Here.

Professor Reynolds has been reading that delightful little poem, Louise, very industriously of late, and a few of the Faculty are getting a trifle, mind you, only a trifle, worried. For the enlightenment of those who are not fully acquainted in the matter, we take great pleasure in explaining that the aforesaid Louise is an old (?) and very dear friend of the professor’s.

At the Harnois.

“Do you see the point?” the maiden asked, with a glance that was ever so sly. “No; but I feel it,” the student replied. “For your hat pin is in my eye.”

Going Some.

Dr. Underwood, reading—“Yes, in this day and age something new happens every day.”

Miss Buckhouse—“What now?”

Dr. Underwood—“Oh, nothing in particular, only at Smith I see they have made a girl a Fellow.”

In Wellesly the Sunday morning callers are obliged to attend church along with their friends. Hurrah for the co-eds, they have the right idea.

Fourteen of the sixty-nine students sent this year by the Chinese government to universities of America, entered Michigan.

WOMAN’S SUFFRAGE

SENATE INDORSES THE MEASURE
BUT IT DIES IN THE
HOUSE.

The woman’s suffrage bill was practically killed in the house. It was indorsed by a 33 to 30 vote but as a two-thirds majority is necessary to make it effective it thus died. It may, however, come up for reconsideration.

Dan O’Hern acquitted himself well at the suffrage meet. He did not take his position too seriously and he was not too frivolous. One or two budding statesmen destroyed themselves by trying to be funny.

The woman’s suffrage affair was interesting. Miss Rankin, who is a Missoula woman, created a good impression. Her speech was to the point, and not long.

Representative Berry repeated what he said at a Neighborhood club banquet. He declared that he was convinced that women should vote.

Ronald Higgins, who is as wise as an owl, made one innocent motion and quit. He moved that a committee of three be appointed to escort the lady into the hall.

Mr. Woody was not in the city.

Some of these days Montana is going to have woman suffrage. Miss Jeanette Rankin made a fine and lasting impression on the lawmakers of the house Wednesday. She convinced some of the hardened members that the woman voter dignifies and improves the ballot.

Helena, Feb. 4.—Dr. Donohue today served notice that he would move a reconsideration of the vote on house bill 147, his woman suffrage measure. House Bill 122, by Higgins—Changing the date of the filing of the annual report of the president of the University of Montana.

ALUMNI NOTES.

Cecil Dwyer, ’09, who had a week’s leave of absence to participate in the Paton-Smith wedding celebration, resumed her school work at Willis on Monday.

Ben D. Stewart, ’02, who, together with Mrs. Stewart recently returned from a trip to Treadwell, Alaska, has been confined to his home on East Pine street by an attack of grip. However, Mr. Stewart is improving rapidly and hopes to be able to be at his office early this week.

Sue Garlington, ’07, who is one of the several Stevensville Alumni, is expected to spend the week end at her home here.

Frances M. Jones, ’08, is teaching in the Anaconda public schools this year.

D. Lamar Maclay, ’10, came down from Lolo Friday to attend the athletic ball.

Nell Bullard, ’08, now teaching in Plains, spent the week end “seeing the sights” in Spokane.

Florence Theime, ’09, who is teaching in Roundup this year, writes very interesting, entertaining letters concerning this practically new town. She describes it as being typically western in its newness, and tells us there is such wealth there that the dollars fairly roll down its one and only main street.

Floyd Hardenburgh, ’06, has bought from John Curran his entire sign, billboard and street car advertising business in Missoula and surrounding country and will take charge immediately. Mr. Hardenburgh has been connected with his father in the Hardenburgh clothing store, but has severed his relations there in order to give all his time to the new enterprise. The Kaimin extends the best wishes to Mr. Hardenburgh for a successful business career.

DON’T

—walk across the campus. There are several well defined trails across it now, namely, from the Dorm to the Library, from the main gate to the main hall, Science hall to the Library, and several minor paths. It may seem all right now, when we are in a hurry, but in the spring we will have a mutilated and marred campus. Don’t do it.

—loaf around the halls; do something.

—smoke on the campus. Nuf sed.

—fail to speak to all the new forestry students, whether you know them or not, it will promote good fellowship.

—think that because you passed well the first semester that you will never have to study again, it isn’t so.

—forget to subscribe for The Kaimin.

—be late to classes, it disturbs everyone.

—be afraid to tell your professor that the end of the hour is up if he has failed to hear the bell, the next class has the sole privilege of your company then.

—talk in the library, it disturbs your neighbor.

PUNCHES.

A little article that goes to show that you can’t please everybody all the time. A few different opinions from different people regarding the punch at Athletic ball:

F. K.—“Say, this punch is fine, not a bit like the Rubifoam punch that we had last year. Believe I’ll have a little more.”

D. C. W.—“Too sour; I’d rather drink water (is seen several times imbibing in the punch, probably because he don’t know where the water is.)

M. M.—“Has lemons in it, and (seeing a few co-eds hovering around the bowl) around it.”

H. F.—“Let’s get a swig of the orangeade.”

A. M.—“It really is invigorating; suppose we have some more.”

P. B.—“Gee, that’s great dope, not a lot of sticky cherries in bottom of a fellow’s glass that he may look at but can’t get.”

M. S.—“In France I noticed the

punch was flavored rather strongly, but it cheers one and makes one lively.”

G. R.—“Really, the punch is excellent.”

ENGINEERS’ CLUB TO MEET.

The Engineers’ Club of the University will meet in the lecture room of Science Hall on February 15, at 8 o’clock.

Robert Sibley, formerly at the head of the engineering department of the University, but now one of the most promising engineers in the state, will be the principal speaker of the evening. Mr. Sibley has spoken before the club several times and he is one of the most interesting speakers that the members have had the opportunity of hearing, and owing to this fact, there will be no doubt as to a large attendance. After this address there will be nominations for the semi-annual officers of the organization. The present officers are President Harry D. MacLay; vice president, Milton Mason; secretary, Pete Hansen, and Treasurer, Leo Baker.
